

## **In memory of comrade Tekoşer Piling (Lorenzo Orsetti)**

The 18<sup>th</sup> of march, the anarchist internationalist Lorenzo Orsetti fell martyr during liberation operations in Bahoz. As other revolutionary internationalists who became immortal, like Ivana Hoffmann Anna Campbell, Alina Sanchez, Samuel Prada Leon, Oliver Le Clainche, Haukur Hilmarsson, he came to defend the revolutionary process in Rojava.

His love for oppressed peoples, for justice and equality, pushed our comrade Tekoşer to fight, with a weapon in his hand, against the reactionary groups of FSA which are allied to the fascist turkish state and the obscurantists of DAESH.

Heval Tekoşer joined us at TIKKO before the Afrin war began. When the invasion by the turkish state began, he immediately signed up voluntarily to fight against the enemy and to defend the revolution.

In the battle of Afrin he showed his great courage and he fought until the end of the battle. Heval Tekoşer stayed in our headquarter until december when he decided to join the front in Deir-ez-Zor. There he resisted to several attacks by the enemies and he once more showed his devotion for the antifascist struggle. The local commanders even called us to tell us how heroic he was fighting.

In January, after several deployments to the front in Deir-ez-Zor, he told us that he wants to join the organisation Tekoşina Anarşist. We respected his anarchist identity and we also always had good relations with this organisation, so we respected his choice.

He joined the front in Bahoz in early march as a member of Tekoşina Anarşist. On the 18<sup>th</sup> of march DAESH made a big attack on the positions of SDF, where also Heval Tekoşer was fighting alongside of other internationalists, who are with TIKKO. There he fell as martyr after several hours of confrontations and resistance.

During his stay in Rojava Heval Tekoşer dedicated a lot of time and energy to communication. In the interviews he gave, he brought forward current and substantial analyses. He thus allowed to many people to get a better understanding of the real situation here in Rojava. He also showed the contradictions of the ongoing revolutionary process. He gave his skills in communication to the service of the revolution. He understood the people and pushed and criticised our outdated pratiques in communication to permit to reach broader masses with the ideas of the democratisation process in Rojava.

We ask to all the comrades who hear that message, to show solidarity. Solidarity is a weapon which we need to strenghten especially nowadays in the current situation of the international revolutionary movement. To commemorate Heval Tekoşer (Lorenzo Orsetti) means to keep in mind, for what he fell. It means to continue his fight for justice, equality and unity between revolutionaries, a fight which he fought daily.

When a comrade falls in a battle, this does not weaken us. But it strengthens us and leads us to fight against fascism and against capitalism with a greater determination. Lorenzo lives on in our memories and especially in our fights.

The martyrs are immortal, şehid namirin!

TKP/ML – TIKKO Rojava Commandment
